The President

The White House

Sir:

Your approval is requested for amendments to the request for appropriations for fiscal year 1990 totalling $584,300,000 in budget authority. It also includes appropriations language to allow the Secretary of State the use of $125,000,000 in Defense funding. These amendments, together with $7,000,000 in transfers under existing authority within the Department of Defense, would provide $716,300,000 to implement the additional FY '90 initiatives included in the National Drug Control Strategy that you are announcing today.

I have carefully reviewed these amendments and am satisfied that they are necessary at this time. I recommend, therefore, that they be transmitted to Congress.

Respectfully yours,

Richard G. Darman
Director
